

DESCRIPTION

The tensioner is used for the attachment of external connections cables De 1 pairs de conductors in parallel, 0.9 mm in diameter, for use in the customer network

Model	OFT-TC H			
Components	Size		Weight	Breaking Force
Plastic Tensioners	Width	38.1 mm	16g	1.33kn
	Length	76.2 mm		
Wire Hook	Diameter	6.35 mm	30g	
	Length	150 mm		

- **Tensioner material**

The material es ABD plastic, black, resistant to ultraviolet light Moisture, salts and temperature changes and do not conduct current

- **Hook Material**

The tensioner is provided with a hot galvanized steel hook, with A minimum zinc deposition de 3.36 grams/dm²
